

## Outdoor panel

# MA-01HD

Slinex MA-01HD is an individual outdoor panel with an ultramodern design. This outdoor panel has a lot of advantages, among them: a color CMOS camera with a 2 MP resolution (AHD), mechanical IR-cut filter and 6 LED's night backlight. This panel has no equivalents in the modern market in terms of its functionality and external parameters.

|                          |                             |                             |                                           |
|--------------------------|-----------------------------|-----------------------------|-------------------------------------------|
